CHAPTER 7

SEPARATION PROGRAM DESIGNATOR CODES

7000. MILITARY SEPARATION PROGRAM DESIGNATORS CODES

1. Separation program designators are four-digit codes to be reported on the unit diary as part of a separation entry. The column entitled "Grade" denotes highest and lowest grade for which the code is a suitable designator; e.g., **DOD9W1** indicates the separation code applies to all officer grades; **DOD9E1** applies to all officers and enlisted. The column entitled **SEX** indicates codes are applicable to females only (**W**), males only (**M**) or to either male or female (**Q**). When assigning a code to a members separation package refer to **MCO P19QQ.16** as the official document.

2. The first character of the code indicates the type of separation (Military Separation Type) as follows:

CODE EXPLANATION

B	Resignation allowed in lieu of actions that could result in adverse findings or board action
C	Resignation allowed in lieu of demotion
D	Resignation allowed in lieu of courts-martial
F	Resignation, other than above, allowed by established directive
G	Discharge, involuntary, approved recommendations of a board
H	Discharge, involuntary, lieu of further proceedings of board action
J	Discharge, involuntary, other than above, directed by established directive
K	Discharge, voluntary
L	Release or transfer, involuntary, to another service component (excludes reversion to inactive or retired list)
M	Release or transfer, voluntary, to another service component (excludes reversion to inactive or retired list)
N	Transfer to Fleet Reserve (authorized by 10 U.S.C. 6330)
P	Dropped from rolls (an action that removes a member from the rolls of a DoD component) (certain enlisted members must be returned to military control or discharged administratively)
Q	Vacation of member's appointment by the DoD component concerned
R	Retirement, voluntary (retirement authorized but not required by law)
S	Retirement, mandatory (required by law)
V	Revert to retired list
W	Retirement
Y	Release from military control (released from custody and control of the DoD component by virtue of a void enlistment or induction, or release ordered by a U.S. court or judge thereof, or convening authority of general/special courts-martial, or military agency)

3. The second and third characters of the separation program designator codes indicate the reason for separation.

4. The fourth character of the separation program designator codes is a Marine Corps unique code.

OFFICIAL USE ONLY

designation is cancelled upon removal of Chapter 7

5. Separation Program Designator (**SPD**) Flags are a one byte processing flag added to the MCTFS unit diary edit. The processing flag controls the action that MCTFS takes when an SPD code with that processing flag is reported on the diary. The following are (**SPD**) Flags:

FLAG	<u>EXPLANATION</u>
V	Voluntary Separation Incentive Pay/Special Separation Benefit Incentive Pay. Automatically generates a join unit diary entry to an IRR RUC.
W	Drop from the USMC with no obligation to the USMCR. Will drop the individual record completely (both from active duty and from the Reserve).
X	Discontinued SPD code. Will cause the drop entry to fail with an error indicating that the SPD code used is discontinued.
Y	Approved for Involuntary Separation Pay with a Reserve obligation. Will automatically generate a join unit diary entry to an IRR RUC.
Z	Reserve or Active Retirement. Automatically generate a join unit diary entry to a Retiree RUC.
Blank	Release from Active Duty/Retain in Reserves. A blank processing flag will shut the active duty portion of the individual record, but keep the reserve portion open.

FOR OFFICIAL USE ONLY
designation **is** cancelled upon removal of **Chapter 7**
